

KOGI STATE GOVERNMENT OF NIGERIA

AUDITED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023.

KOGI STATE GOVERNMENT MINISTRY OF FINANCE, BUDGET AND ECONOMIC PLANNING

Financial Statements for the Year Ended 31 December 2023

Forward by the Honorable Commissioner of Finance, Budget & Economic Planning

In line with desire of His Excellency, the Governor of the State to entrenched transparency and accountability, Kogi State have been diligent in timely publication of her Audited Financial Statements. The adoption of the International Public Sector Accounting Standard (IPSAS), using Accrual basis has helped in a great measure in achieving set goals.

Since the inauguration of this administration in 2016, the State Government has made deliberate efforts to invest more in physical infrastructure to improve quality of lives of the Citizens in a sustainable manner and less in overheads. This has led to the prioritization of long-term investments that has now brightened the future of the State.

It is important to emphasize that significant amount of cost that are otherwise classified as recurrent expenditures are in fact investments in social services such as Health Insurance scheme and the likes with long term implications on the well-being of citizens.

Following the adoption of IPSA Accrual basis by Kogi State Government in the year 2016, we have increasingly improved in content and quality of information in the financial statements with each year serving as improvement for the next.

It is my hope that stakeholders, users, including development partners, would find the Financial Statements for the year ended 31 December 2023 valuable in significant areas of their information requirements.

siwaju Idris Asiru, FCA

Honourable Commissioner of Finance, Budget & Economic Planning

15/7/2024

KOGI STATE GOVERNMENT OF NIGERIA OFFICE OF THE ACCOUNTANT GENERAL

RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

These Financial Statements have been prepared in accordance with the provisions of the Finance (Control and Management) Act 1958 now CAP F26 LFN 2004. The Financial Statements comply with the provisions of International Public Sector Accounting Standards (IPSAS) accrual basis of accounting, issued by the International Public Sector Accounting Standard Board (IPSASB) for the three tiers of Government in Nigeria vide National Treasury Circular Ref. No. OAGF/CAD/POL/C.0301/VOL.1/01, dated 23 October 2014.

To fulfill accounting and reporting responsibilities, the Accountant-General is responsible for establishing and maintaining adequate system of internal controls designed to provide reasonable assurance that the transactions recorded are within statutory authority and they adequately disclose the use of all public financial resources by the government for the year ended 31 December 2023.

As the Accountant-General, and the State's Accounting Officer for receipts and payments of government, I am saddled with the responsibility of general supervision of accounts and the preparation of the Accrual- Basis IPSAS Financial Statements.

Therefore, I accept responsibility for the integrity of these Financial Statements, and the information contained therein.

Haj. Dr. Habibat O. Tijjani (FCNA)

Accountant-General,

Kogi State.

OFFICE OF THE STATE AUDITOR GENERAL KOGI STATE GOVERNMENT OF NIGERIA

Our Ref:

REPORT OF THE STATE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF KOGI STATE GOVERNMENT FOR THE YEAR ENDED 31 DECEMBER 2023

AUDIT CERTIFICATE

The consolidated Financial Statements of the Government of Kogi State of Nigeria for the year ended 31 December 2023 and all accompanying notes have been audited in accordance with section 125 Sub-Section 5 of the Constitution of the Federal Republic of Nigeria, 1999 (as amended) and Section 8(b)of Kogi State Public Audit Law, 2018, and other matters connected therewith, repealed and reenacted 2021.

RESPONSIBILITY OF THE ACCOUNTANT-GENERAL

In compliance with Section 125 Sub-section 5 of the Constitution of the Federal Republic of Nigeria 1999 as amended and the provisions of the Finance (Control and Management) Act 1958 now CAP F26 LFN 2004 as well as the National Treasury Circular TRY/A5 & B5/2016.OAGF/CAD/26/V.III/7, the Accountant General of the State is responsible for the preparation of Financial Statements. He is responsible for establishing and maintaining adequate system of internal control designed to provide reasonable assurance that the transactions recorded met statutory requirements and adequately disclosed the use of Public Resources by the Government and to give reasonable assurance that the Financial Statements are free of all forms of material misstatements.

RESPONSIBILITY OF THE AUDITOR-GENERAL

The Auditor-General's responsibility is to express an independent opinion on the Financial Statements of the State based on his audit in compliance with Section 125 Sub-Section 5 of the Constitution of the Federal Republic of Nigeria 1999 as amended; Section 41 Sub-Section 1 of Kogi State Fiscal Responsibility Law of 2012, Laws of Kogi State of Nigeria, Financial Instruction No 102 and Section 8(b) of Kogi State Public Audit Law, 2018, and other matters connected therewith, repealed and reenacted 2021. The Financial Instruction states that "The Auditor-General is responsible for the audit of accounts of all accounting Officers and all persons entrusted with the collection, receipt, custody and issue or payment of public moneys or with the receipt, custody, issue, sale, transfer or delivery of any stamps, securities, stores or other

Government property and for the certification of Accountant-General's Annual Financial Statements and Annual Appropriation Accounts of all Ministries and Departments". An audit in this context involves the examination on a test basis, of evidence relevant to the amounts and disclosures in the financial statements prepared by the Accountant-General, including an assessment of the significant estimates and judgments made in the preparation of the Financial Statements and whether the accounting policies are appropriate to State Government's circumstances, consistently applied and adequately disclosed.

BASIS OF OPINION

The Audit was conducted in accordance with international standard on Auditing and generally accepted Public Sector auditing standard. These standards require compliance with ethical requirements, and to plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatements whether due to fraud or error. During the audit, we evaluated the overall adequacy of the information presented in the General-Purpose Financial Statements (GPFS), which was prepared in accordance with International Public Sector Accounting Standards (IPSAS) Accrual Basis. I obtained all the information and explanation that to the best of my knowledge were necessary for the purpose of the audit. This audit has provided me with reasonable evidence and assurances which formed the basis for my independent opinion.

OPINION

In my opinion the Financial Statements agree with the books of accounts and records and give a true and fair view of the Financial Position of the Government of Kogi State for the year ended 31 December 2023, and the transactions for the fiscal year ended on AMMManu 1907/2024 that date.

Yakubu. Y. Okala FCA, MBA, B.Sc.

Haj. Dr. Hatibat O. Tijjani (FCNA) Accountant-General, Kogi State.

KOGI STATE GOVERNMENT OF NIGERIA OFFICE OF THE ACCOUNTANT GENERAL

KOGI STATE STATEMENT OF ACCOUNTING POLICIES.

1. ACCOUNTING PRINCIPLES, CONCEPTS & CONVENTIONS

The objectives of the financial statements are to provide information about the financial position, financial performance and the cash flows of the Kogi State Government that would be useful to wide range of users. Being a Public Sector Entity, the objectives were developed specifically to provide information useful for decision making and also to demonstrate the level of Kogi State Government's accountability for the resources entrusted to it.

The key considerations for accounting principles to be followed when preparing the financial statements are those laid out in Kogi State Government's Financial Regulations and Public Finance Management Law (2011) and those described in IPSAS -1. These include fair presentation, accrual bases, going concern, consistency of presentation, aggregation, offsetting and comparative information.

2. THE APPROPRIATION LAW

The Appropriation Law used for the purpose of presentation of these financial statements was that enacted by the Kogi State House of Assembly and assented to by His Excellency, the Executive Governor of Kogi State, Alhaji Yahaya Adoza Bello on 30th December, 2022. This Law shall be sighted as the (KOGI STATE APPROPRIATION LAW, 2023).

3. BASIS OF PREPARATION

a) Statement of Compliance

In line with the recommendation of the Federation Account Allocation Committee (FAAC) for the adoption of IPSAS-Accrual Accounting for all Public Sector Entities (PSE) in Nigeria with effect from 01 January 2016, Kogi State Government transits from the IPSAS Cash-Basis of accounting to IPSAS Accrual Basis of accounting as first-time adopter in 2016, and has subsequently maintains such.

The Adoption of an Accrual Basis of accounting helps in the assessment of financial performance as the financial statements reflect all expenses whether paid or not and all income whether received or not, together with the comprehensive information on the financial position (i.e., assets and liabilities) and the Changes in Net Equity of the State

Government. To this end, a Standardized Chart of Account (COA) alongside a set of General-Purpose Financial Statements (GPFS) was domesticated and adopted.

b) Notes to the General-Purpose Financial Statements (GPFS)

The Accounting Policies form part of the Notes to the General-Purpose Financial Statement (GPFS). The Notes are prepared in systematic manner. The items in the Statements are **cross-referenced** to the related information in the Notes and in accordance with the Format provided in the Standardized General Purpose Financial Statements GPFS.

c) Basis of measurement

The General Purpose Financial Statements (GPFS) are prepared under the historical cost convention and following the International Public Sector Accounting Standards (IPSAS) accrual basis of accounting and other applicable standards as defined by the Fiscal Responsibility Commission (FRC), the Financial Reporting Council of Nigeria (FRCN) and with the provisions of the Constitution of the Federal Republic of Nigeria 1999 as amended, the Finance Control and Management Act (1958) now CAP F.26 LFN 2004 and in agreement with the Standardized Reporting Format approved by the Federation Account Allocation Committee (FAAC) of the Federal Republic of Nigeria in 2013.

To ensure effective and efficient utilization of the Charts of Accounts (COA) and the GPFS, Accounting Policies have been developed by the Kogi State Government as a set of guidelines to direct the processes and procedures relating to financial reporting in Government financial statements.

Consequently, and in line with the Format, the 2023 Consolidated Financial Statements comprise the followings; -

- i. Consolidated Statement of Financial Performance,
- ii. Consolidated Statement of Financial Position,
- iii. Consolidated Statement of Cash-Flow Statement,
- iv. Consolidated Statement of Changes in Equity,
- v. Consolidated Statement of Comparison of Budget and Actual,
- vi. Notes to the Financial Statements
- vii. Accounting Policies and other explanatory statements or notes.
- **d)** Understandability This Financial Statements have been prepared in a manner that information herein can be comprehended and understandable by a reasonable user.
- e) Relevance Only information and content that are relevant to potential user are incorporated into this Financial Statements and the accompanying notes are put together in a manner that can assist the users to evaluate past, present or future events.

- f) Materiality All Information and items that are material in nature for which omission or misstatement could influence the decisions of users have been adequately disclosed in the Financial Statement and relevant notes to the accounts.
- **g)** Reliability –Best efforts were made to ensure reliability of all information included in the Financial Statement and ensure the Financial Statements is free from material error and bias, and can be depended upon by users.
- **h) Prudence** Degree of caution was exercised in all judgments needed in making any estimates required, such that assets or revenue are not overstated, and liabilities or expenses are not understated.
- i) Completeness All efforts were made to ensure completeness of information included in the financial statements.
 - **j)** Comparability Where necessary, information regarding previous years were provided to afford user opportunity for comparative analysis as may be required from time to time.
 - **k)** Going Concern. The financial Statement was prepared bearing in mind that Kogi State Government shall continue to exist in the foreseeable future.
 - **k)** Consistency The Accounting Policies and method adopted for recognition of assets and liabilities and classification of items included in the Financial Statements were consistent over the years to allow ease of comparability.

l) Presentation Currency

All amounts have to be presented in the currency of the Nigeria Naira (\aleph) which is the functional currency of the Kogi State Government.

j) Statement of Cash flow

This statement shall be prepared using the direct method in accordance with the format provided in the GPFS.

The Cashflow statement shall consists of three (3) sections:

- i. Operating activities These include cash received from all income sources of the Government and record the cash payments made for the supply of goods and services.
- ii. Investing activities These are the activities relating to the acquisition and disposal of non-current assets.
- iii. Financing activities These comprise the change in equity and debt capital structure of the PSE.

4.0 BASIS OF ACCOUNTING

The Kogi State General Purpose Financial Statements (**GPFS**) are prepared under the **Accrual Basis of Accounting.** The State migrated from IPSAS Cash basis to IPSAS Accrual Basis of accounting effective, 2016 and has maintained such till date.

4.1 Consolidation Policy (applicable to controlling entities)

- a. All MDA of the Government shall be consolidated except Commercial Public Sector Entities (CPSE).
- b. Consolidation of the GPFS shall be in agreement with the provisions of all the relevant legal requirements.
- c. Controlled entities are fully consolidated from the date in which control is transferred to the Public Entity. They are de-consolidated from the date that control ceases.
- d. Controlling Entity with interest in a CPSE should account for such by presenting it as an investment, recognizing the Net assets of the Investee Entity in the Statement of Financial Position

5.0 Accounting Period

The Accounting year of the State Government's Financial Statements (Fiscal Year) is from 01 January to 31 December. The accounting year is divided into twelve (12) Calendar months (Periods) and is set up as such in the accounting system.

5.1 Budget Figures

These are figure from the approved budget in accordance with the Appropriation Act. In any year where there is a revised Budget, the revised budget figures are used in the financial statements.

6.0 Revenue

Revenue includes only the gross inflow of economic benefits or service potential received or is receivable by the State on its account. Those amounts collected as an agent of the government or on behalf of third parties are not considered revenue. Revenue is measured at the fair value of the consideration received or receivable.

6.1 Revenue from Non-exchange Transactions

These are transactions from which Kogi State Government receives value, without directly giving appropriately equal value in exchange. This includes mainly direct and indirect taxes. In addition to taxes, Kogi State Government also receives payments from other parties, such as transfers, grants, fines and donations.

6.2 Taxes Receipts

Taxes are an economic benefit or service potential compulsorily paid or payable to Kogi State Government, in accordance with laws and/or regulations, established to provide revenue to the Government. Taxes do not include fines or other penalties imposed for breach of the law. Kogi State Government recognizes revenue from taxes

by reference to the earning of assessable income by the taxpayers. Taxes are measured at the fair value of the consideration received or receivable to Kogi State Inland Revenue Service. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Kogi State Government taxes include Pay-As-You-Earn, Tax on Contract, Withholding Tax, Entertainment Tax, Capital Gain Tax, Stamp Duties, Development Levy, Property Tax, Business Premises and Other tax receipts.

6.3 Levies, Fees and Fines

These are inflows of future economic benefits or service potentials from non-exchange transactions other than taxes. They are an economic benefit or service potential received or receivable by Kogi State Government, as determined by Kogi State laws or by a court and other law enforcement bodies, as a consequence of the breach of laws or regulations and are recognized at the point when the levy is being imposed.

6.4 Statutory Allocation

Statutory allocation is income from the revenue allocation system wherein fund is allocated to each federating unit from the Federation Account based on certain predetermined criteria. Statutory allocation is measured at fair value and recognized at the point of receipt.

6.5 Capital Receipts

These include grants and other capital receipts. Capital receipts are measured at fair value or when there is an enforceable claim to receive the asset is free from conditions.

Capital receipts are recognized when it is probable that the economic benefits or service potential related to the asset will flow to Kogi State Government and can be measured reliably.

6.6 Other Revenues from Non-Exchange Transactions

These represent revenues from Lottery Board and recovered funds. Revenues from Lottery Board are received from lottery and bet operators in the State. This is recognized at the fair value of the consideration received or receivable.

6.7 Revenue from Exchange Transactions

These are transactions from which Kogi State Government receive consideration, and directly gives approximately equal value in revenue from the sale of goods and services is recognized when the significant risk and rewards of ownership of the goods are transferred to the buyer. This is when the goods have been delivered and when the revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to Kogi State Government.

Revenue involving the provision of services is recognized by reference to the stage of completion of the transaction at the reporting date.

Revenue arising from the use by others of Kogi State Government's assets yielding rental income, interest, royalties and dividends or similar distributions, are recognized as they are earned in accordance with the substance of the relevant agreement. Revenue is recognized when the amount can be measured reliably, and the economic benefits or service potential associated with the transaction will probably flow to Kogi State Government. Where the contract outcome cannot be measured reliably, revenue is recognized only to the extent that the expenses incurred are recoverable.

6.8 Revenue from Other Services

Revenue from other services includes proceeds from the Private Sector Developer's Program, toll revenue, proceeds from hospital units and other miscellaneous revenue from exchange transactions. Kogi State Government recognizes revenue from rendering of services as it is earned, that is, as the services are provided. It is measured at the fair value of the consideration received or receivable.

6.9 Investment Income

Investment income consists of dividend income. Dividend income or similar distributions are recognized when Kogi State Government's right to receive payment is established. In the year ended 31 December 2022, gains were made on Kogi State investment.

6.10 Aid and Grants:

- i. Aid and Grants to the state are recognised as income on entitlement, while aid and grants to other governments/agencies are recognised as expenditure on commitment.
- ii. Grant should be recognised as either in kind (assets, goods or service) or Cash
- iii. Assets related grant for which conditions are fully met should be recognised systematically as income in the GPFS to compensate the cost of the Asset (depreciation) it is intended to represent by applying deferred Income method.

6.11 Subsidies, Donations and Endowments

Subsidies, Donations and Endowments to the state are recognised as income when money is received, or entitlement to receive money is established; except where fulfilment of any restrictions attached to these monies is not probable.

6.12 Transfers from other government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on receipt of the asset (cash, goods, services and property) if it is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably.

7.0 Cash and cash equivalent

Cash and cash equivalents as shown in the statement of financial position comprises cash-in-hand or bank, deposit held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

8.0 Inventory

Inventories are stated at the lower of cost, current replacement cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable completion and selling expenses. When inventories are held for distribution at no charge or a nominal charge, they are measured at the lower of cost and current replacement cost. The Current replacement cost is the cost that the Kogi State Government would incur to acquire the asset on the reporting date.

The cost of finished goods and work-in-progress is determined using the first-in, first-out (FIFO) method and comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition but, excludes borrowing.

9.0 Classification of Financial Instruments

Financial assets or liabilities at fair value through surplus or deficit are financial assets or liabilities held for trading. A financial asset or liability is classified in this category if: acquired principally to sell or repurchase in the short term; or on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit-taking. Assets in this category are classified as current assets if expected to be realized within twelve months; otherwise, they are classified as non-current assets.

9.2 Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the end of the reporting period. These are classified as non-current assets.

Kogi State Government's loans and receivables comprise 'receivables from exchange transactions', 'recoverable from non-exchange transactions', 'other receivables' and 'cash and cash equivalents' and are presented in the statement of financial position. Loans and receivables are initially recognized at fair value less transaction costs. Subsequently, loans and receivables are measured at amortized cost using the effective interest method less a provision for impairment.

9.2 Available-for-sale Investments

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or Kogi State Government intends to dispose of it within twelve (12) months of the end of the reporting period. Kogi State Government has recognized some of its quoted and unquoted investments as well as managed funds as available-for-sale Investments.

Available-for-sale investments are recognized initially at fair value plus transaction costs and are subsequently carried at fair value. A gain or loss on an available-for-sale financial asset shall be recognized directly in net assets through the Statement of changes in net assets, except for impairment losses and foreign exchange gains and losses, until the financial asset is de-recognized, at which time the cumulative gain or loss previously recognized in net assets shall be recognized in surplus or deficit. On the other hand, interest calculated using the effective interest method is recognized in surplus or deficit. Available-for-sale investments are classified as non-current assets unless an investment matures within twelve months, or the Government expects to dispose of it within twelve months.

9.3 Financial Liabilities at Amortized Cost

Financial Liabilities at amortized cost include Payables, Other Liabilities and Debts. Financial liabilities measured at amortized cost are recognized initially at fair value, net of any transaction costs incurred, and subsequently at amortized cost using the effective interest method. These are classified as current liabilities if payment is due within twelve months. Otherwise, they are presented as non-current liabilities.

10.0 Categories & Measurement

Financial Asset or Financial Liability at Fair Value through Surplus or Deficit. Financial instruments in this category are measured at fair value on both initial recognition and subsequently. Transaction costs are an expense in the statement of financial performance. Surplus and deficit arising from changes in fair value are presented in the statement of financial performance within "other surplus and deficit (net)" in the period in which they arise. Non-derivative financial assets and liabilities at fair value through surplus or deficit are classified as current except for the portion expected to be realized or paid beyond twelve months of the reporting date, which are classified as long-term.

10.1 Recognition & De-recognition

Financial instruments are recognized when Kogi State Government becomes a party to the contractual provisions of the instrument. Planned future transactions, no matter how likely their occurrence may be, are not assets and liabilities because the entity has not become a party to a contract. Financial assets are de-recognized when the rights to receive cash flows from the assets have expired or have been transferred and

Kogi State Government has transferred substantially all risks and rewards of ownership. Financial liabilities are de-recognized when the obligation under the liability is discharged, cancelled or expired.

10.2 Reclassification

Kogi State Government may choose to reclassify a non-derivative trading financial asset out of the holder for the trading category if the financial asset is no longer held to sell in the near term. Financial assets other than loans and receivables are permitted to be re-classified out of the held for trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near term. Re-classifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortized cost as applicable, and no reversals of fair value gains or losses recorded before the reclassification date are subsequently made.

11.0 Financial Instrument

A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. Kogi State Government classifies its financial assets in the following categories at fair value through surplus or deficit, held to maturity, loans and receivables, and available for sale. The classification depends on the purpose for which the financial assets were acquired.

Kogi State Government classifies its financial liabilities at fair value through surplus or deficit and at amortized cost. Classification of financial liabilities is based on the nature or characteristic of the instrument. The Office of the Accountant-General determines the classification of its financial assets and liabilities at initial recognition. For the sixth Transitional Financial Statements for the year ended 31 December 2022, Kogi State Government has recognized financial liabilities measured at amortized cost. These include local and foreign debts and investments.

11.1 Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

11.2 Impairment of financial assets

Impairment is defined as a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation. Kogi State Government assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets are impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include an indication that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with the defaults.

For the loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the statement of financial performance. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

As a practical expedient, Kogi State Government may measure impairment based on an instrument's fair value using an observable market price. If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in the statement of financial performance.

11.3 Financial Instruments denominated in foreign currencies

These are financial instruments denominated in currencies other than the functional currencies that result in the contractual right to collect, or contractual obligation to deliver cash in foreign currencies such as external loans where the amounts payable or receivable are denominated in a foreign currency.

Financial instruments denominated in foreign currencies are initially recognized in the functional currency, by applying to the foreign currency amount, the Spot Exchange Rate between the functional currency and the foreign currency at the date of the transaction. At each subsequent reporting date, these financial instruments are translated using the closing rate.

12.0 Property, Plant & Equipment (PPE).

Kogi State Government performed an Asset Verification Exercise to determine the deemed cost of some Property, Plant & Equipment (PPE) items as at the date of adoption of IPSAS. Recognition of PPE items will be on a class-by-class basis.

Property, Plant and Equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition or construction of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits or the service potentials, associated with the item will flow to Kogi State Government and its cost can be measure reliably.

Repairs and maintenance costs are charged to the statement of financial performance during the financial period in which they are incurred. Finance costs attributable to amounts borrowed by the Kogi State Government to fund the acquisition of property, plant and equipment are expended immediately as they are incurred.

Assets under construction are not depreciated as the assets are not yet available for use. While depreciation on other assets is calculated using the Straight-Line Method to allocate their costs to their residual values over their estimated useful lives.

12.1 Lease of PPE

Leases of property, plant and equipment where Kogi State Government, as Lessee has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the inception of the lease agreement at the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges to achieve a constant rate on the balance outstanding. The corresponding rental obligations, net of finance charges, are included in Long-Term liabilities if the tenure is more than one year. The finance cost is charged to the profit or loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance leases are depreciated on a straight-line basis over the asset's useful life or over the shorter of the asset's useful life and the lease term.

12.2 Depreciation Rates and Carrying Amount of Property, Plant and Equipment:

The estimation of the useful life of PPE is based on the state's accounting policy. The following standard rates shall be applied to all Kogi State Government's Property, Plants and Equipment.

Dep	Depreciation Rate for Property, Plants and Equipment (PPE)							
S/N	Category of PPE	Depreciation Rate						
1	Land	N/A						
2	Building	2%						
3	Furnitures and Fittings	20%						
4	Laboratory Equipment	20%						
5	Information Technology (IT) Equipment	25%						
6	Motor and Transport Vehicles	20%						
7	Office Equipment	25%						
8	Plants and Machinery	10%						
9	Road and Infrastructure	1%						
10	Biological Assets	N/A						
11	Heritage/Legacy Assets	N/A						

12.3 Capitalization

- i) The capitalization threshold shall be N50,000.00 (Fifty Thousand Naira).
- ii) Only amounts spent in connection with the above and whose value exceed N50,000.00 (Fifty Thousand Naira) shall be capitalized
- iii) All assets equal to or above this amount are recorded in the Fixed Assets Register. However, in certain cases, the Kogi State Government aggregates individually insignificant value items such as chair and tables, printer and UPS, etc, and apply the capitalization threshold to the aggregate value.
- **iv)** Where an asset's category already exists for a newly acquired asset below the capitalization threshold, such an asset is capitalised irrespective of its cost and recorded in the Fixed Assets Register under the appropriate category.

12.4 Gain/Losses on Disposal of Assets

Gains or losses on disposals are determined by comparing proceeds less selling expenses with the carrying amount of the disposed asset, and are included in the statement of financial performance.

13.0 Basis for Measurement of Biological Assets:

Kogi State Executive Council at its meeting on 7th December 2016, passed a resolution for the verification of the State Assets and Liabilities as of 31st December 2016. This decision was in tandem with the road map and pre-requisites for the adoption and implementation of the International Public Sector Accounting Standard (IPSAS) Accrual basis of accounting in Nigeria. In light of this decision, a consultant was engaged by the State Government to carry out the verification of the State Assets and Liabilities as o 31st December 2016.

13.1 Valuation of Biological Assets:

Kogi State Biological Assets were measured at Fair Value less cost to sell. The Fair Value is the amount an asset could be exchanged between knowledgeable and willing parties in an arm's length transaction. Until revaluation is done as required by IPSAS 27, the present value of biological assets would still be carried forward.

13.2 Justification for the use of Fair Value:

IPSAS 17 transitional provision on the first-time adoption states that "Where the cost of acquisition of an asset is not known, its cost may be estimated by reference to its fair value as at the date of acquisition" and use that fair value as its deemed cost at that date. Thus, Kogi State elects to measure its biological assets at their fair values while subsequent valuation or revaluation shall be done at its real or market value.

14.0 Public Debt Charge

Public debt charges are interest and other expenses incurred by Kogi State Government in connection with the borrowing of funds for qualifying assets. Kogi State Government has adopted the benchmark treatment, under which public debt charges are recognized as an expense in the period in which they are incurred, regardless of how the debts are applied. Interest cost is calculated using the Effective Interest Rate Method (EIRM). The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income/cost for each period.

15.0 Impairment of Non-financial Asset

Impairment is defined as a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Kogi State Government assesses whether there is any indication that an asset may be impaired at each reporting date. If any such indication exists, Kogi State Government will estimate the recoverable amount of the asset. For intangible assets, irrespective of whether there is any indication of impairment, Kogi State Government will test its intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. If there is an indication that an asset may be impaired, this may indicate that the remaining useful life, the depreciation (amortization) method, or the residual value for the asset needs to be reviewed and adjusted in accordance with the standard applicable to the asset. If the reasons for impairments recognize in previous years no longer apply, the impairment losses are reversed accordingly. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. An impairment loss is recognized when the recoverable amount of an asset is less than its

carrying amount. The carrying amount of the asset shall be reduced to its recoverable amount.

An impairment loss shall be recognized immediately in surplus or deficit. After the recognition of an impairment loss, the depreciation (amortization) charge for the asset shall be adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

16.0 Cash-generating Units

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. Identification of an asset's cash-generating unit involves judgment. If the recoverable amount cannot be determined for an individual asset, Kogi State Government will determine the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

17.0 Foreign Currency Transactions

Items included in the financial statements of each of the Kogi State Government's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Nigerian Naira (N), which is Kogi State Government's functional and presentation currency. Foreign currency transactions throughout the year are converted into Nigerian Naira at the ruling Central Bank of Nigeria (CBN) rate of exchange at the dates of the transactions. Foreign currency balances as at the year-end are valued at the exchange rates prevailing at that date.

Monetary assets and liabilities denominated in foreign currencies are translated into Nigerian Naira based on the exchange rates applicable at the reporting period. Foreign exchange gains and losses that relate to debts are presented within the finance cost in the statement of financial performance. All other foreign exchange gains and losses are presented in the statement of financial performance on a net basis within other income or other expenses. Non-monetary items that are measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences in assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

18.0 Significant Accounting Judgement, Estimates & Assumptions

18.1 Contingent Assets

A contingent asset is a possible asset that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Kogi State Government. A contingent asset is disclosed when an inflow of economic benefits or service potential is probable.

18.2 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Kogi State Government, or a present obligation that arises from past events but is not recognized because:

- ✓ it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation or,
- ✓ the amount of the obligation cannot be measured with sufficient reliability.

The preparation of Kogi State Government financial statements in conformity with IPSAS requires management to make judgement, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

18.3 Estimation and Assumptions

In other to prepare financial statements that conform with IPSAS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Kogi State Government's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed herein. Consequently, estimates and judgement are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, thus, Kogi State Government makes estimates and assumptions concerning the future. The resulting accounting estimates will by definition equal the related actual results.

18.4 Fair value estimation

Where the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets variables where possible, but where this is not feasible, judgment is required in establishing fair values. The judgment includes the consideration of inputs such as liquidity risk, credit risk, financial risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

19.0 Recoverable from Non-Exchange Transactions

A recoverable is recognized when revenue is earned but cash or its equivalent is yet to be received. Following revenue recognition criteria, Kogi State Government has measured its recoverable arising from tax receipts by using a statistical model based on the history of collecting the particular tax in prior periods.

Haj. Dr. Habibat O. Tijjani (FCNA)

Accountant-General,

Kogi State.

NOTE TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023

NOTE 17

BIOLOGICAL ASSETS

NOTE	Description	YEAR ENDI	ED 31 DECEMBE	Year Ended 31 December 2022			
17	BIOLOGICAL ASSETS	Actual	Budget	Variance	Actual		
17	BIOLOGICAL ASSETS	593,712,029,920	0	(593,712,029,920)	593,712,029,920		
TOTAL BIOLOGICAL ASSETS		593,712,029,920	0	(593,712,029,920)	593,712,029,920		

Biological Assets are life assets, e.g. animals or plants that are used in agricultural activities. In Kogi State, Biological Assets include, the forest, agricultural plantations, the wild life animals and the fishery. NOTE 2: IPSAS 27 requires Biological Assets to be measured on initial recognition and at each reporting date at it's fair value less costs to sell, except for the case where the fair value cannot be measured reliably. When such fair value cannot be measured reliably, the entity shall disclose for such biological asset an explaination of why fair value cannot be measured reliably. Biological Assets shall be reported separately on the face of Financial Position in the General Purpose Financial Statements. NOTE 3: Kogi State Biological Assets are measured at each reporting date at its Fair Value less cost to sell.

SUPPLEMENTARY NOTE ON BIOLOGICAL ASSETS (NOTE 17)

These are funds accumulated and set aside or reserved from current earnings by a corporation or government agency for the purpose of periodically redeeming bonds, debentures, and preferred stocks. They are usually set up to repay long-term debts or bonds with an interest rate that is determined by specific number of years and are listed on balance sheets as non-current assets. They are not considered to be assets that are expected to be converted to cash within a year because business cannot use them as a source of working capital.

Non-Tax Revenue is the recurring income earned by the government from sources other than taxes. The most important receipts under this head are interest receipts (received on loans given by the government, interests and dividends receipts from government investments, profits received from public sector companies and other non-tax receipts. In Kogi State, Non-Tax Revenue include, licenses, fees, fines, rents and sales of government properties, earnings from government institutions and agencies etc.
